## A BOOK OF SPECIALTIES FOR SPRING PLANTERS

**ERSKINE PARK EVERBEARING RASPBERRY.**—This wonderful berry produces immense quantities of large, red, luscious fruit continuously from June until frost destroys it.

**HONEY-SWEET BLACK RASPBERRY.**—One solid quart of fruit picked on nine stems from one branch, clipped from a single plant set in the fall of 1919.

### "TRUSTWORTHY" Trees and Plants

what they mean to you  
Note well the "Trustworthy" mark shown above. It is the official trade mark of the American Association of Nurserymen, which is composed of some four hundred nurserymen. The Association is free and open, but there is one test every member who enters or remains in it must pass: His products and his service must be up to the high standard set by the Association. We have been members of this Association since 1875, and while the quality of Glenwood Grown products has always been above question, we are glad to add this "Trustworthy" guarantee to our "Dependable Service," giving you a combination that is unsurpassed when it comes to buying your trees and plants.

## More Than HALF A CENTURY GLENWOOD NURSERIES

have constantly been supplying amateur and commercial planters all over the world with trees and plants of the highest quality, for every place and purpose. Shipments scientifically packed are safely made each season to customers residing in every state in the Union and to many foreign countries. As this catalogue goes to press we are shipping a large order to one of our customers, The Inshallah Dairy Farm & Stock Co., Shanghai, China, 12,000 miles away.

Our facilities for growing, digging, packing and shipping trees and plants are unsurpassed. Our employees are hired because of their skill and especial fitness to the work they do—our plant is the last word in modern efficiency—our prices are as low as it is possible to make them and produce the high quality for which we are so well known. We neither overcharge nor cut quality, but spend all of our time and whatever money is necessary in bringing our products up to the highest possible standard—AMERICA'S STANDARD SINCE 1866. We have no connection in any way, shape or manner with any other nursery in Rochester or elsewhere. Address all communications and send all orders to Glen Bros., Inc., Glenwood Nurseries, Rochester, N. Y.

**Free**

With every order of \$5.00 or more, we will send absolutely free one copy of our 24-page booklet, "TRANS-PLANTING AND MANAGING FRUIT AND ORNAMENTAL TREES, SHRUBS, VINES AND FLOWERS." The information contained in this booklet is of the utmost value to both the amateur and commercial planter.

### OUR ERSKINE PARK EVERBEARING RED RASPBERRY BEARS CONTINUALLY FROM JUNE TILL FROST—"THE EARLY TILL LATE BERRY"

The Erskine Park Everbearing Red Raspberry was discovered on the private estate "Erskine Park," of Mr. George Westinghouse, Lee, Mass. This magnificent estate is in the midst of the beautiful Berkshire Hills, with a temperature in winter of thirty to forty degrees below zero, so that the hardiness of this berry is unquestioned. Mr. G. M. Darrow, of the United States Department of Agriculture, says: "The plant is by far the strongest growing Raspberry I have ever seen. It branches like a tree and it also has the largest and most roots of any variety with which I am acquainted. It is perfectly hardy, and the berries are very large."

Of this berry we cannot say too much in praise, and we predict that once known it will be a standard for planting in every garden and considered a necessity. **EACH BERRY BEING OF LARGEST SIZE, WITH ITS HIGHLY FLAVORED MELTING FLESH FULL OF CREAMY JUICE.**

Conceive the joy and satisfaction of having such berries on your table all through the summer and autumn, the source of wonder to your neighbors, that you can pick the finest Raspberries until the snow flies. **ON NOVEMBER 20 WE CUT A LARGE BRANCH OF THE ERSKINE PARK WITH BLOSSOMS, GREEN BERRIES AND FRUIT UPON IT.**

Your order will be filled with the **FINEST BEARING TWO YEAR OLD PLANTS**, heavily rooted and branched, that will bring a full measure of pleasure and satisfaction to you.

**PRICE—STRONG FIELD GROWN BEARING PLANTS:** Per 6, \$3.00; per 12, \$5.00; per 100, \$30.00.

You receive the genuine Erskine Park when you order from us at these prices.

### HONEY-SWEET BLACK RASPBERRY—SWEET AS HONEY THE BERRY FOR THE MILLION AND THE MILLIONAIRE—THERE'S MILLIONS IN IT

The sensation of the fruit world. Do not fail to include in your order for Dependable Trees and Plants, a few at least of the Honeysweet. The berries are just about the most delicious fruit you ever tasted. Ripens in July—sweet and delicious—unlike any other Black Raspberry.

The Honeysweet is extremely hardy, passing through the severe fruit tree killing winter of 1919-1920 without injury to a single twig on any plant in a four acre patch. Bears every year—has never been a slacker.

**LARGE SIZE—GLOSSY BLACK—DELICIOUS. THE WORLD'S GREATEST  
BLACK RASPBERRY**

The many clusters of big black Raspberries literally cover the bushes. Twelve of our vigorous nursery grown plants will produce many quarts of fruit next summer when you are hungry for berries. Twelve or more plants will fit into your garden nicely—no garden should be without Honeysweet.

As a dessert berry, in pies, as a canned sauce, as a jam, you never tasted anything like it before or since. It has been called "The most delicious Black Raspberry."

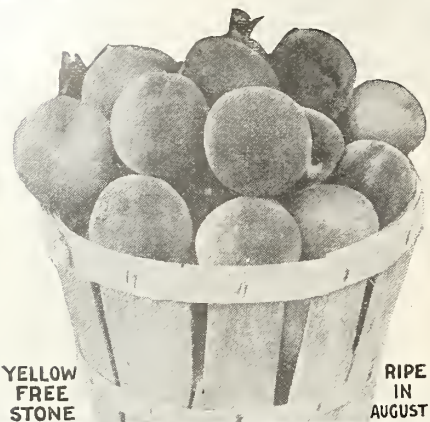

**PRICE—\$2.50 per 6; \$4.00 per 12; \$25.00 per 100.**

## General Catalogue

Many who receive this special "55th ANNIVERSARY BULLETIN" have not received a copy of our beautiful general catalogue for 1921. It describes, with prices, a multitude of trees, plants, perennials, roses, evergreens, etc. Those of you who have not received a copy and who desire one, write immediately, addressing Dept. G, and a copy will be promptly mailed without obligation on your part.

## OUR NEW ROCHESTER PEACH

### ROCHESTER PEACH

ROCHESTER PEACH.—A basket of the most delicious fruit the second year after planting.

The following letter is unsolicited. Good, isn't it?

MR. C. E. STRAWBRIDGE OF LIMA, OHIO, WRITES US UNDER DATE OF AUGUST 26th, 1920, AS FOLLOWS:—"On April 10th, 1916, I set out one of your new Rochester Peach Trees. Last year we picked 5 peaches from it, each averaging the size of an average teacup. THIS YEAR WE HAVE PICKED EXACTLY 403 LARGE PEACHES FROM THIS ONE TREE. Many people have seen this tree and can hardly believe their own eyes. One of its admirers was Postmaster J. E. Sullivan, who wants me to put him in touch with the 'fellows who have such trees for sale.'"

It is a proven fact that our new Rochester Peach is the earliest yellow freestone producing fruit in this section the middle of August. It is unquestionably one of the most desirable peaches yet discovered. The tree is a strong, upright grower of iron clad hardiness. It has stood 16 degrees below zero and produced a full crop, while Elberta and Crawford under the same conditions in the same orchard produced no blossoms, consequently no fruit.

#### OUR TREES FREQUENTLY PRODUCE FRUIT THE FIRST SEASON PLANTED

Mr. C. N. Thomas, 215 W. 40th St., Savannah, Ga., writes us under date of July 23rd last, as follows:—"February of this year, I bought a Rochester Peach Tree from you. On July 20th, same year, I picked one of the finest peaches I have ever tasted. The stone was very small and clean. The meat was light yellow, perfectly ripe all the way through. Can you beat this?"

Mr. Yarker, of Greece, N. Y., who has an orchard of 500 Rochester trees, has picked as many as 17 perfect peaches from one tree, one year after planting. Mr. Rudman, of Irondequoit, N. Y., who has an orchard of 3,500 Rochester Peach Trees, has picked 27 peaches from a tree of the same age as that of Mr. Yarker's. It is seldom known to fruit growers for young trees planted a little over a year to bear fruit. You receive GENUINE ROCHESTER when you buy from us.

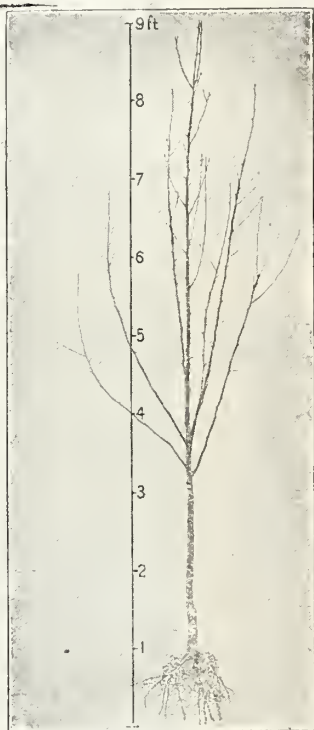

WE OFFER SPLENDID, WELL DEVELOPED TREES, WITH PLENTY OF ROOT POWER, \$1.00 EACH; \$10.00 PER DOZEN; \$75.00 PER HUNDRED. EXTRA LARGE TREES, \$1.50 EACH; \$15.00 PER DOZEN.

## EXTRA LARGE SIZED APPLE, PEAR AND PLUM TREES

### PLANT FANCY TREES TO OBTAIN FANCY FRUIT

For those of our customers who prefer trees of a larger size than is usually sold by nurserymen, we have grown a few thousand handsome specimens. Such trees naturally will produce quicker results, but their cost is slightly more than the smaller two-year trees described with prices on pages 5, 6, and 7 of our general catalogue. THESE LARGER TREES ARE WELL BRANCHED, WELL ROOTED, AND WELL BALANCED. It takes work, time and money to produce such trees, and we have spared neither. These trees save you much tedious waiting for results.

Each tree has been grown, cultivated and pruned for a specimen. All of them grade from seven to nine feet in height. The illustration at the side shows a specimen plum. If you want larger fruit trees, something real choice and fancy for quicker results, order before our stock is exhausted.

FRUIT TREES.—We recommend these magnificent trees, but have smaller ones for those who prefer them.

## TOM THUMB DWARF FRUIT TREE COLLECTION

### FRUIT TREES SUITABLE FOR THE SMALLEST GARDEN AS WELL AS FOR THE LARGEST

Six choice varieties, three of apple, and three of pear—just enough for a small yard and enough variety for everyone in the family. Dwarf trees are distinctly for the amateur and the home plantation. They enable you to have varieties which cannot be found commercially, and to secure an assortment which will give fruit in succession for an extended season. You may have your own apples and pears from July to June, or in almost continued succession for twelve months of the year.

The varieties that we have selected for this collection are unsurpassed; some of them will bear fruit the first season planted.

1 Red Astrachan Apple, Season for Table Use, August	
1 Wealthy Apple, " " " " October, November	
1 Winesap Apple, " " " " January to June	
1 Koonce Pear, " " " " July	
1 Bartlett Pear, " " " " September	
1 Anjou Pear, " " " " October to January	

The trees for this collection are carefully selected. It is our aim to supply only trees that are thrifty, well branched and rooted, and we have made the price within the reach of all.

OUR PRICE IS ONLY \$5.00 FOR THIS COLLECTION. This is a great investment.

One of many Dwarf Apple Trees furnished by us and planted at Great Neck, L. I., N. Y., Spring 1920. Many of these trees bore fruit last summer.

# Northern New York Nut Trees

LARGEST STOCK  
LARGEST ASSORTMENT

We offer for spring planting an unusual assortment of hardy Northern New York Grown Nut Trees, including English, Japan and Black Walnuts, Hard and Soft Shell Almond, American and English Filberts, Butternuts, Hickory, Chestnuts, etc.

**GLENWOOD GROWN ENGLISH WALNUT TREES WIN FIRST PRIZE IN WASHINGTON**

Office of David Whitcomb  
Arcade Building  
Seattle

Glen Brothers, Inc., Rochester, N. Y.  
Gentlemen:—

Oct. 20th, 1920.

You will be interested to know that at the Western Washington Fair just held at Puyallup, my exhibit of English Walnuts secured first prize.

Without minimizing the value of our method of treatment and our excellent soil, it is obvious that had we not started with clean, pure type stock, such as that secured from you, we could never have been so successful.

Yours very truly,  
(Signed) DAVID WHITCOMB.

## ENGLISH WALNUTS

At Avon, N. Y., less than twenty miles from Rochester, one orchard of only 128 English Walnut Trees, grown from seed, has produced in a single season two hundred sixty bushels of nuts, thirty-two pounds to the bushel.

Our trees of the Thomson variety are grown from nuts produced by the trees growing in this orchard.

In the October, 1915, issue of the American Nut Journal, Dr. W. C. Deming, then Secretary of the Northern Nut Growers' Association, said with reference to English Walnut trees growing about Rochester, N. Y.:

"The trees are there. I urged the local committee \* \* \* to locate every tree they could, so that we might visit them all, but it was soon found that if we were to do this, we should have to live in Rochester. \* \* \*

It is not unusual to see Walnut trees in the yards of houses that we passed. Most of the trees were large, thrifty and bushy."

We claim that our hardy Northern Grown Trees will grow and produce nuts in any climate not too severe for Peach trees, and in any soil adapted to the growing of Apples, Peaches, Pears, Cherries and other fruits.

The following are two of our most popular varieties:—

**FAIRPORT.**—Originated in Rochester. A safe and reliable variety to plant in zero climates. Nut round, full-meated, of fine quality, thin shelled. Tree is a rapid grower, blooming late. Nuts ripen and fall from trees in September.

**THOMSON.**—An excellent commercial nut for severe climates. Thin shell, sweet and delicious, selling at wholesale from 4 to 6 cents per pound more in Rochester markets than do the California nuts.

**PRICE:**—2-3 ft. \$1.00 each, \$10.00 per doz., \$ 60 per 100

3-4 ft. \$1.50 each, \$15.00 per doz., \$100 per 100

4-5 ft. \$2.00 each, \$20.00 per doz., \$150 per 100

Specimen Tree, 5-6 ft. \$5.00 each, \$50.00 per doz.

**EXTRA LARGE ENGLISH WALNUT TREES.**—Superb for lawns and driveways. For those of our customers who wish to get the earliest possible results in bearing, age and appearance, we offer this coming spring a few specimen trees that will prove exceptional values. 6-8 ft. \$7.50 each, \$75.00 per doz.

## BLACK WALNUTS

One of the most valuable nut trees grown, its timber being highly prized for furniture, interior furnishings, automobiles, sewing machines, firearms, and the like. The wood is a rich dark brown, very durable, hard, strong and splits easily; takes a fine polish. In addition to its importance as a timber tree, however, the round, rough nuts furnish rich, meaty kernels which sell at high price. A noted authority on nuts recently made the assertion that "The planting of nut trees along all the public highways would, in less than twenty years, result in a crop the food value of which would be greater than at present produced by the entire livestock industry of the country."

Absolutely hardy, growing and bearing under adverse conditions, the American Black Walnut surpasses all other varieties of nuts in point of hardiness. From Canada to the Gulf of Mexico, the Black Walnut will thrive, and after the first few years requires little attention, making a rapid, sturdy growth and soon producing an addition to the owner's income without operating expense.

For roadside planting or for reforestation large areas, we have extensive plantings of these valuable trees to offer at the following attractive prices:

3-4 ft., 75c each, \$8.00 per dozen, \$60.00 per hundred; 6-8 ft., \$1.25 each, \$12.00 per dozen, \$90.00 per hundred; extra large trees, 8-10 ft., \$3.00 each, \$30.00 per doz., \$200.00 per hundred.

## BUTTERNUTS

One of our finest native nut trees, growing occasionally to a height of 100 feet and spreading in proportion. The wood is much valued because of the beautiful finish possible in cabinet-work. The large, elongated nuts are rich, sweet and of delicate flavor; very nutritious. The size of the nuts can be increased by cultivation. As the present supply of cultivated Butternuts is insufficient to satisfy the demand of a single city market, there are large profits in store for planters who will exert themselves to supply this demand. The trees bear when young, and after they come into full bearing will bring large returns on the original investment. Plant largely of Butternuts. For hardiness, disease-resistance, and general all-round desirable characteristics, the Butternut has few superiors. 5-7 ft., \$1.00 each; \$9.00 per doz.

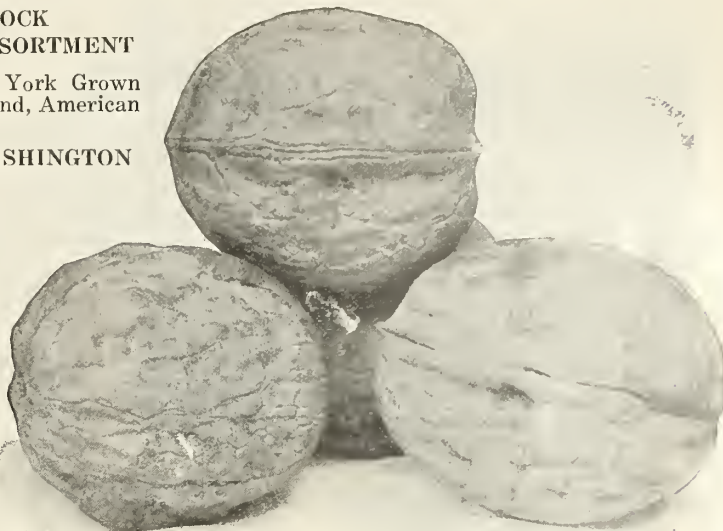

## DIKEMAN CHERRY

As large as the black Californian Cherries one sees in the fruit stores. Bears third year. Rich and delicious—never a "tummy ache" from eating this rich fruit and you may eat as much as you like.

The Dikeman is bound to please at delivery time, because of its exceptionally handsome appearance, being a strong grower, well topped, and having a trunk as straight as a die. Especially will it give satisfaction when it comes into bearing, on account of its prolificness and exquisite quality of fruit. It is extremely hardy, in fact, will thrive admirably in all sections where Cherries are grown. The Dikeman is rapidly becoming the most popular Black Sweet Cherry grown.

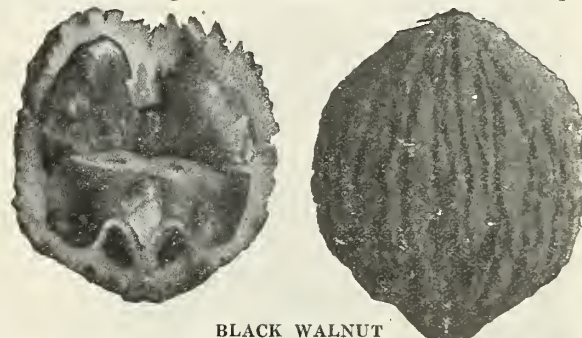

This gem among Cherries has the advantage of being the latest ripening sweet Cherry known. Black, good size, and in texture reminds one of the Cherries from the Pacific Slope, being meaty and solid.

Price, strong 2-year-old trees only \$1.50 each. \$15.00 per dozen.

ENGLISH WALNUT

Just imagine the rich flavor and meaty kernels inside this Fairport English Walnut

BLACK WALNUT

There is a richness to the flavor of the Black Walnut Kernel that is peculiar to this nut

BUTTERNUT

Butternut trees bear when young

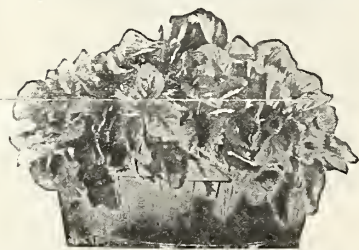

DIKEMAN CHERRY

The blackest, the latest ripening, the most delicious Sweet Cherry known

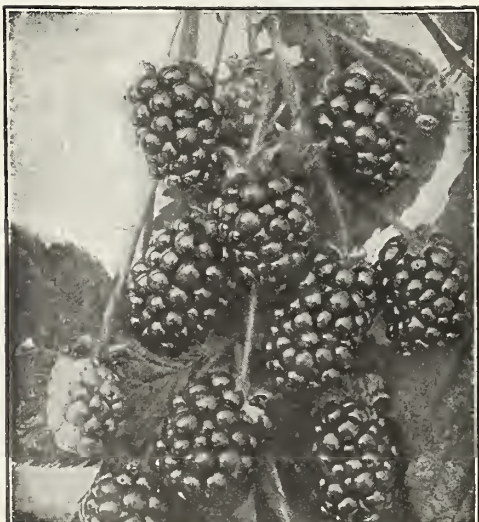

**SUPERB**  
Picking Delicious Superb Strawberries in New York State during October

**BUSHEL BASKET**  
Plants the size of this will naturally produce an immense amount of fruit

**GOLDEN QUEEN**  
Berries of old gold, rich and delicious

**BURBANK'S THORNLESS BLACKBERRY**  
No further recommendation necessary other than introduced by Luther Burbank

## Our "Superb" Everbearing Strawberries

### STRAWBERRIES THAT BEAR FOR FIVE MONTHS

Delicious berries throughout the months of June, July, August, September, October; our Everbearing Strawberry, "SUPERB," turns the trick.

A well known authority on Strawberry Cultivation states: "You simply cannot keep them from fruiting from June until November unless you pick their blossoms. They are the MOST PERSISTENT plants in their fruiting habit I have ever known."

**BERRIES LARGE, PERFECTLY FORMED, BEAUTIFULLY COLORED, DELICIOUSLY FLAVORED.** Hardy in plant, in blossom, in fruit. Luscious berries on your table five months of the year.

**RECORD.** The editor of a well known Western newspaper reports the following: 1 sq. rod planted May 1st, produced July, 3 quarts; August 24 quarts; September 24½ quarts, October 23 quarts.

Hardy from Maine to California, from Hudson Bay to Florida. A magnificent opportunity for everyone everywhere. A quart of luscious berries on your table five months of the year from a square rod (16½ sq. ft.) is within the reach of everyone, even the city resident.

**STRONG FIELD GROWN PLANTS,** packed to carry safely to any part of United States and Canada, \$1.00 per dozen; \$5.00 per 100; \$40.00 per 1,000.

## OUR BUSHEL BASKET STRAWBERRY

### A SINGLE PLANT WILL FILL A BUSHEL BASKET

The originator writes: "I will give one thousand dollars in gold for one hundred plants of any new variety of strawberry having the money-making qualities of the BUSHEL BASKET STRAWBERRY."

The color is a beautiful crimson and must be seen to be appreciated, as language fails to describe just the color effects.

The seeds are small and inconspicuous.

The berry is a good canner because it holds its crimson color to the center and retains its distinctive strawberry flavor after cooking.

The following is from the record of the Bushel Basket Strawberry, on file at the New York State Agricultural Experiment Station, Geneva, N. Y.:

Vigorous, perfectly healthy, productive; fruit stems long; perfect; ripens in mid-season. Fruit symmetrical, plump; seeds much shrunken; flesh, color, light red and light red at center; firm with a pleasant sprightly flavor.

**REDUCED PRICE THIS SEASON, STRONG FIELD GROWN PLANTS, \$3.00 PER DOZEN; \$20.00 PER 100.**

## OUR WONDERFUL RASPBERRY—Golden Queen

Treat yourself to this: Pour some rich, golden cream on a dish of rich, golden Raspberries, add a little sugar, yes, very little—Ye gods! it's great!

Golden Queen should be in every garden. One customer writes that he did not know what Raspberries were until he had tasted them. The flavor is of the highest quality, and in size is equal to the Cuthbert. A very strong grower, and hardy enough for the entire northern latitudes.

Mrs. L. Beechner, 975 E. 93rd St., Brooklyn, N. Y., writes us under date of July 28th, 1920:—

"Gentlemen:—The berry bushes ordered from you in April and delivered to me in May were planted immediately, as advised. Every one of them survived transportation; every one bloomed, and every one is now bearing fruit large and delicious.

"I really can't tell which I like the best, 'Erskine Park' or the 'Golden Queen.' Both good. Had the first taste Sunday for dessert. I am more than pleased."

**WE OFFER STRONG 2-YEAR-OLD PLANTS, \$2.00 PER DOZEN; \$15.00 PER HUNDRED. ORDER EARLY!**

## BURBANK'S THORNLESS BLACKBERRY

### SOMETHING ENTIRELY NEW AND DIFFERENT—INTRODUCED BY LUTHER BURBANK

Burbank's Thornless Blackberry is all and more than anyone has claimed for it. We candidly believe that in the near future, the majority of blackberries grown both for home use and for shipping, will be of the thornless sort. The fruit is as easy to gather as grapes, neither gloves nor courage needed. One can gather them very readily, getting every berry, and not getting scratched from the vine.

**BURBANK'S THORNLESS BLACKBERRY** is an immense bearer after the second year. Fruit good size, jet black, finest of flavor. Never before has history recorded a commercially valuable thornless blackberry. They have come to stay and take their place amongst fruits. We offer it for the first time this season and can make prompt shipment throughout the planting season of spring 1921.

**STRONG, WELL ROOTED PLANTS: \$3.00 per 6; \$5.00 per 12; \$30.00 per 100.**

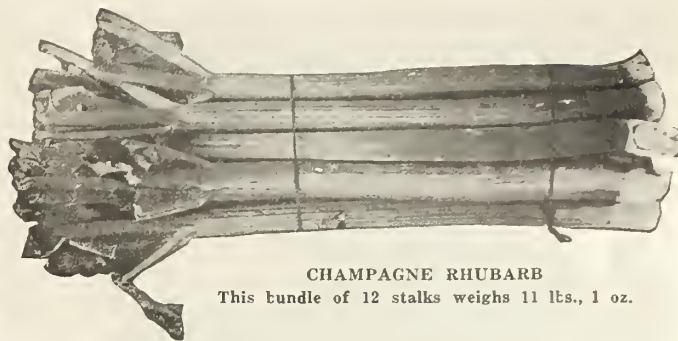

## CHAMPAGNE WINEPLANT RHUBARB

Named because of its fine, sparkling champagne flavor. It is the ne-plus-ultra of all Rhubarb. Surpasses all other varieties not only in flavor and most delicate tenderness of its crimson stalks, but also in size. The ACTUAL WEIGHT OF TWELVE STALKS BEING ELEVEN POUNDS AND ONE OUNCE. Those who have never tasted Champagne Rhubarb will have a surprise.

With this variety, it is possible to have Rhubarb on your table from Spring until Autumn. It will supply an abundance of appetizing sauce and pies. Few private gardens are without this healthy vegetable, and none should be. Its culture is the simplest. A small space, 6 x 6 ft. will grow all the Rhubarb that the average family require or could possibly use. Dig up your old rhubarb and plant Champagne—it will pay you.

PRICE FOR STRONG TWO-YEAR-OLD ROOTS, 50c EACH, \$3.00 PER DOZEN, \$20.00 PER 100.

CHAMPAGNE RHUBARB

This bundle of 12 stalks weighs 11 lbs., 1 oz.

## ASPARAGUS PLANTS—Four Years Old

LUSCIOUS ASPARAGUS THE FIRST SEASON

Two years saved by planting four year transplanted roots this spring. Downing, no doubt the highest authority, says, "Roots of this age will produce fruit the same season planted." A great many more people would grow their own asparagus if it were not for the two years of waiting. We eliminate this for the planter by cultivating and transplanting the roots until they are four years old, strong and healthy. Too good to be true, you say, and yet you have the word of one of America's most eminent horticultural authorities.

Plant some of these extra large roots this season. They have been transplanted and worked over for the past four years purposely to give you immediate results.

To prepare an asparagus bed, prepare a place of fine loamy soil, to which has been added a liberal dressing of rich manure. Set in rows 18 to 20 inches apart, which with the plants 10 to 12 inches apart in the rows. Make a small mound of the soil, over which the roots should be spread. Then cover the plants with about three inches of soil.

We offer these extra fine 4-year transplanted roots at \$1.00 per dozen, \$3.50 per fifty, \$7.00 per hundred. Order some and when received if not the largest, finest plants you have ever seen, return to us and we will refund your money.

ASPARAGUS

Asparagus from your own garden and at an extremely low cost

## GRAND DUKE PURPLE PLUM

DELICIOUS JUICY PLUMS—2½ x 2 INCHES IN SIZE.

In Grand Duke we offer a variety that comes into bearing early—a variety that will produce fruit the second or third year. Extremely delicious, either as a raw fruit, or a preserve, and we regard it as the best of all varieties of purple plums.

"The Plums of New York," by V. B. Hedrick, describe it as follows: "Fruit large, cavity shallow, color dark reddish purple, or purplish black, overspread with thick bloom; stems three-fourths inch long, adhering well to the fruit; flesh golden yellow, firm, sweet, mild, stones cling, sometimes tinged red."

Could anything be more desirable than to have one of these trees in your garden loaded with delicious fruit.

For those who desire something really fancy and an exceptionally heavy and regular cropper, Grand Duke fills the bill.

We offer a limited quantity of this variety in splendid 2-year trees at \$2.50 each, \$25.00 per dozen; 4-year-old trees, 7-9 ft. in height, \$4.00 each, \$40.00 per dozen.

GRAND DUKE PLUM

Immense in size, delicious in quality

## IVES

## A FAMOUS GRAPE — THE PERFECT GRAPE

Special—4-YEAR-OLD VINES—BIG FELLOWS—Special

We take decided pleasure in offering for the first time this splendid Grape in large, strong, healthy, 4-YEAR-OLD VINES. In the spring of 1917 we planted the cuttings and during the past four years these vines have been constantly cultivated and pruned. The illustration, showing one of the vines with tape measure will give a good idea as to size of these vines.

Owing to our limited stock we advise ordering now. Shipment can be made immediately or on any date you specify up to June 1st, 1921.

Ives was originated by Henry Ives of Cincinnati, Ohio, probably from the seed of Hartford. Its color is black; BUNCH extremely large, shouldered, compact, handsome. BERRY, large, tender, juicy, sprightly, vinous, rich, sweet, without pulp. ESTEEMED AS THE BEST GRAPE FOR MAKING RED WINE. VINE is vigorous, healthy, hardy. In addition to all this, it is a very reliable variety and unusually free from mildew or rot.

If you want a delicious Grape, plant IVES. If you want quick results, PLANT THESE LARGE FOUR-YEAR VINES.

PRICE—\$2.00 each; three for \$5.00; six for \$9.00; twelve for \$15.00.

Notice the immense root. It has taken four years to develop it

**ELDERBERRY**  
Clusters of Elderberries, large, plentifully produced and sweet

## DELICIOUS ELDERBERRIES

### THE NATIONAL JOY BERRY

Imagine the joy of picking large, ripe, luscious Elderberries from trees growing in your own garden. Heretofore, the only way one could get Elderberries was to go out in the country and gather them from trees growing wild in fence corners and along hedge-rows, but we have solved the problem for you in our NURSERY GROWN Trees.

Plant a few in your garden this spring. The fruit makes delicious pies and jam. Elderberry wine has been a common home product. Color of fruit is black or blackish. Height of tree is only ten to twenty feet when fully grown and may be planted close together. Fruit ripens August and September. The Elderberry Tree grows in almost any soil, requires no care or attention and commences bearing abundantly almost immediately.

We offer for spring planting a limited quantity of extra fine, nursery grown specimens at \$1.50 each, \$15.00 per dozen. Order early.

**CUT LEAF WEEPING BIRCH**  
The most beautiful lawn tree

## SPECIAL-CUT LEAF WEEPING BIRCH-SPECIAL

Growing in our Fairport nurseries are a few hundred specimens of Cut Leaf Birch, 10 to 12 ft. in height. These are magnificent trees, and if you happen to be in the vicinity of Rochester we invite your inspection—you ought to see them.

These trees have received the care and attention to make them very symmetrical and each tree is a perfect specimen.

Cut-Leaf Weeping Birch is one of the most elegant of all weeping or pendulous trees. Its tall, slenderly vigorous growth, graceful drooping habit, silvery white bark and delicately cut foliage presents a combination of attractive characteristics rarely met with in a single tree. It is very popular planted as a single tree, or in groups of three or four trees, the white bark of branches and twigs gleaming conspicuously among the darker greens and browns.

While they last, we offer these trees at \$5.00 each, \$50.00 per dozen.

For smaller sizes and prices see our general catalogue, page seventeen.

**AZALEA NUDIFLORA**  
A giant bouquet of hundreds of flowers

## THE LOVELY AZALEA NUDIFLORA

### A FLOWER SHOW IN ITSELF

A handsome free flowering shrub, usually growing 3 to 5 ft. in height. Flowers in early spring before the leaves appear. Deep pink flowers and very showy. The extreme earliness and beauty of the flowers commend this shrub to the planter. We regard Nudiflora as equal in beauty of its foliage, the profusion of its bloom, and the colorings of its blossoms, to many varieties of Azaleas that sell at a much higher price. We can recommend it with every assurance that it will give excellent satisfaction.

Strong selected plants for immediate shipment, 12-14 inches, bushy, \$2.50 each; \$22.50 per 10; \$200.00 per 100.

**MOUNTAIN LAUREL**  
The showy flowers of the Mountain Laurel

## MOUNTAIN LAUREL

This is a most gorgeous evergreen shrub with large, showy flowers. In fact, Mountain Laurel is regarded as one of the most beautiful shrubs in cultivation. Its liberal use makes possible some of the most enchanting results. Dense, rounded, bushy shrubs with elongated, oblong, bright evergreen leaves, and a profusion of bloom in early spring. The pink buds are beautiful in themselves, and open to large corymbs of charming pink and white flowers. Useful for massing with rhododendrons or by themselves. We control large tracts in the mountains of Pennsylvania, and our facilities for collecting are unexcelled. We also carry a large stock at Rochester for the prompt shipment of orders in less than carload lots. We can supply strong, bushy, well shaped plants, in almost any size and quality. Write us for prices on carload lots—300-600 plants, according to size. We take great care to lift all plants with a ball of earth, so that there will be no shock to the plant in transplanting.

### PRICE:—

2-3 ft. clumps, \$4 each; \$40 per 12; \$300 per 100

4-5 ft. clumps, \$7 each; \$75 per 12.

## FINEST RED CURRANT, "THE COMET"

A RED CURRANT OF ENORMOUS SIZE, VIGOROUS IN GROWTH, AND EXCEEDINGLY PROLIFIC

THE BEST RED CURRANT IN CULTIVATION

Granted an Award of Merit by the unanimous vote of the Fruit Committee of the Royal Horticultural Society of England. THE BUNCHES ARE ALMOST APPROACHING GRAPES IN SIZE, BEING FREQUENTLY 8 INCHES IN LENGTH, WITH FROM 20 TO 26 BERRIES OF ENORMOUS SIZE, AND OF THE MOST BRILLIANT CRIMSON COLOR. It is a valuable fruit for dessert purposes, the juice being particularly refreshing and soft to the palate—and without acidity. The growth is abnormally vigorous. It will hang a long time in good condition. The first picking has been made as soon as the 10th of June, and the last as late as the 22nd of August, during three seasons from the same bushes. The great demand from all parts for plants of the COMET where it has been tried amply proves the need there was for improvement in Red Currants, and as this improvement has been achieved in the case of the COMET Red Currant, there is little doubt that this handsome variety has come to stay. The most flattering press opinions upon the merit of this novelty have frequently appeared in the leading Horticultural Papers.

WE WERE THE INTRODUCERS IN AMERICA OF THIS STRIKING NOVELTY.

EXCELLENT PLANTS, STRONG ROOTS, \$3.00 per 12; \$20.00 per 100.

## THIS GRACEFUL DROOPING SPIREA Hardy — BRIDAL WREATH — Showy

Extremely desirable—Supremely beautiful

This is one of the finest deciduous shrubs for planting about the foundations of buildings that we know of. In the early spring, the long, sweeping branches of this splendid variety are literally covered over much of their length by the small, charming double white flowers. The leaves in autumn assume brilliant tints of orange and scarlet.

This well known and popular shrub is a great favorite at "Glenwood" and attracts a great deal of favorable comment from visitors at the nurseries. We recommend it as a shrub that will give more real pleasure and satisfaction for what it costs than anything we grow.

We offer strong extra large plants which are grown expressly to produce immediate effect at 75c each; \$7.00 per dozen.

We offer also a smaller size as described in our general catalogue at 50c each; \$5.00 per dozen.

SPIREA BRIDAL WREATH

## WONDERFUL GIANT RED FLOWERING MALLOW

King of all hardy plants. Perfectly hardy in any climate, and when in full bloom, is a flower show in itself. Every garden and lawn should have one or more of these marvelous plants.

Right in the middle of summer, the rich glorious red flowers of this wonderful creation are beginning to open, and they continue until "Jack Frost" arrives.

Can you realize how large these blooms are? Imagine flowers six to ten inches in diameter, in fact, the size of a dinner plate. They are simply gorgeous. Every flower delights the eye. It will when in bloom overshadow every other plant or shrub on the lawn. Those who see it for the first time say the mass of brilliant color "almost takes their breath away."

These plants come up each year from the same roots, develop into bushes six to eight ft. high and have beautiful foliage. They are as hardy as a rock. In Canada they have lived through the severest winters and in the South have been equally satisfactory.

Our Stock of the Giant Red Mallow is large and we have priced them so that all may enjoy their wonderful display.

Price: 60c each; \$5.00 per dozen.

GIANT RED FLOWERING MALLOW

## THE SUPREMELY BEAUTIFUL LIBERTY IRIS

These remind one of the delicate tracings of the butterfly's wing. They bloom in May and June, and if you yield to their magic spell, it will lead you across the border into a wonderland of delight.

The tall sword-like leaves are interesting in themselves until the gorgeous flowers with their unusual forms and beautiful variations and numerous shades of color make their appearance in May, when the leaves are completely over-shadowed by the splendor of the blossoms. In Loreley and Ossian we offer two of the finest varieties, in our estimation, yet disseminated.

### DESCRIPTION

LORELEY—Perfect shaped flowers, the falls of a deep ultra-marine blue, more or less veined with creamy-white, sulphur-yellow border. The standards are of a deep sulphur yellow, making a pleasing contrast.

OSSIAN—Standards light yellow, falls bronze at base, shading to purple at tip. Very distinct.

We offer good strong clumps of each.

\$1.00 per 3; \$2.50 per 12; \$25.00 per 100.

No order accepted for less than three plants.

IRIS

# OLD GLORY GRAPE COLLECTION

RED, WHITE AND BLUE

Respect for our country's flag would not permit us to give this name to any collection that was not made up of the CHOICEST AND BEST VARIETIES. They are as follows:

**CATAWBA (Red)**—Bunch medium, somewhat loose; berry medium to large, round; a rich shade of red; very handsome and attractive; flesh tender, sweet, and with a rich aromatic flavor; ripens soon after the Delaware; vigorous and productive. We regard it as one of the best red grapes.

**NIAGARA (White)**—Bunch medium to large, compact, occasionally shouldered; berry large, roundish, uniform; skin thin but tough, pale green, changing to pale yellow, with a thin whitish bloom; flesh slightly pulpy, tender, sweet. Remarkably vigorous, healthy and productive; foliage thick and leathery. Ripens with the Concord. All things considered, probably the most valuable white grape in cultivation.

**CONCORD (Blue)**—Clusters large and handsome; berries large, nearly round with handsome blue bloom. Flesh rather firm but tender; quality rich, sweet slightly vinous; a strong and vigorous grower with healthy foliage. The berries do not drop early from the cluster and the fruit keeps a long time in perfection.

Any posted man will confirm our statement that these three are unrivalled. They combine **STRONG, QUICK GROWTH, HARDINESS, PRODUCTIVENESS AND QUALITY**, and the price is so low that all can afford to have them. They require but little room—"any old fence will do"—and but little care, and bear **YOUNG**.

PRICE—THESE THREE FOR \$1.50.

Niagara, the White, of the Red, White and Blue

JULIET ROSE

Juliet is a favorite wherever grown

## Juliet Rose

Old Gold and Rosey Red

One of the most beautiful Roses

We describe it from observation as follows: BUDS CORAL-RED, SHADED WITH YELLOW AT THE BASE. The open FLOWERS ARE OF LARGE SIZE, VERY DOUBLE, and are of SUPERB CORAL-RED, shaded with the most beautiful sulphur-yellow about one-half the length of each petal. IT BLOOMS IN GREAT PROFUSION, the FLOWERS ARE OF EXQUISITE FORM AND SUBSTANCE. We recommend it to all rose lovers, for there is "something missing" in your rose garden if Juliet is not among your collection. Juliet is one of the most beautiful roses you have ever seen and you will say so, too, after you see it bloom.

WE OFFER EXTRA STRONG, 2-YEAR-OLD BLOOMING PLANTS, \$2.00 each; \$20.00 per dozen.

## POSTMASTER

## BLUEBERRIES

Don't you just love Blueberries? Nearly everyone does. It is now possible for you to procure from us Blueberry plants to grow in your own garden.

The Blueberry is one of the most delicious native fruits, and grown as easily as Currants or Raspberries.

Can you imagine picking delicious Blueberries from your own plants, in your own garden? But it is true, nevertheless, and today hundreds and thousands of people throughout the country are doing just this.

Blueberries with cream, Blueberry pie, or preserved Blueberries. Nothing quite so delicious—one never tires of them.

Let us send you a few plants this spring. We offer fine, strong, nursery grown plants.

Price, 2-3 ft., \$2.00 each; \$20.00 per 12.

BLUEBERRIES

Add a little sugar—very little sugar, and cream
